

WE ARE EMR USA

A GLOBAL LEADER IN
SUSTAINABLE MATERIALS

WE RECYCLE ANYTHING FROM A CAN TO AN AIRCRAFT CARRIER,

PUTTING VITAL RESOURCES
BACK INTO THE **CIRCULAR
ECONOMY.**

EMR is a **global leader in sustainable materials** with operations in the USA, UK and Europe. We work internationally with industry, government bodies and the public to turn unwanted metals and plastics into **valuable resources for future use.**

As one of the largest recycling businesses in the world, we have the capabilities to solve any recycling challenge you have. Together, we can create a future where the materials we use do not need to be extracted from the planet.

WE ARE THE SUSTAINABLE PARTNER YOU CAN COUNT ON

We are committed to providing a circular economy solution and extending the lifecycle of the items we receive through reuse and recycling.

THE PLASTICS AND METALS WE RECYCLE SAVE **15.7m TONS** OF CO₂ COMPARED TO VIRGIN ORE EVERY YEAR

That's more than the emissions of a city!

Across the globe, our 150+ sites recycle your materials so they can once again be part of the circular economy and build a greener future.

Our continued policy of investing our profits back into research and development and our dedication to developing a future-ready recycling industry puts innovation at the forefront of what we do. We work with leading businesses, academic institutions and experts from around the world, to deliver cutting edge solutions for future recycling initiatives, such as electric cars, wind turbines and low carbon materials.

SERVICES FOR A CIRCULAR ECONOMY
